

Sai Pranav Atla

Operations Leader | Service Delivery • Client Relationship Management • Process Improvement • Team Leadership

Bengaluru, India (open to Mumbai) | +91 96322 98045 | pranavatla@gmail.com | linkedin.com/in/saipranavatla

PROFILE

Operations leader with **10+ years** running customer-facing service operations, the last seven dedicated to **SAP's Commerce and Customer Experience portfolio** — Commerce Cloud, Cloud for Customer (CRM), Service Cloud and Order Management. Leads a **16-member operations team** accountable for the day-to-day health of enterprise commerce platforms, covering the full customer lifecycle from order management through service and support. Acts as the **single point of contact between SAP and Accenture** for the account: owns the client relationship, negotiates scope and commercials through annual contract cycles, prepares RFP responses and effort models, and routes every process change through a governed intake. Track record of measurable process improvement — **40% faster issue resolution, 25% efficiency gain, 100% SLA compliance** — and of building the reporting that makes performance visible to executives. Recognised with the **SAP Hero Award (Innovator)** and **ACE**, and selected into **Accenture's Top 25 Global AI Programs** for an automated SLA/KPI analytics platform.

CORE COMPETENCIES

Operational Leadership	Service operations ownership, SLA and KPI governance, escalation and major incident command, capacity and shift planning, business continuity, 24x7 support models
E-commerce & Customer Lifecycle	SAP Commerce Cloud, Order Management (OMSA, OMF), Cloud for Customer (C4C), Sales and Service Cloud — order-to-service workflows, customer support lifecycle, platform availability and performance
Client & Stakeholder Management	Single point of contact for a global enterprise client, commercial negotiation, RFP and quotation preparation, effort and pricing models, executive and C-level reporting, multi-vendor governance
Process Improvement & Quality	Root cause analysis and problem management, process standardisation and documentation, quality and adherence auditing, knowledge management, continuous improvement programmes
Team Management	Leading and developing a 16-member operations team, hiring and onboarding, training and enablement, performance management, cross-functional and multi-national collaboration
Tools & Analytics	ITSM ticketing and incident platforms, CRM (SAP C4C / Service Cloud), Confluence and knowledge bases, SAP Service Provider Cockpit and SLA/KPI frameworks, automated operational reporting and dashboards

AWARDS & RECOGNITION

- **SAP Hero Award — Innovator Category (SAP)** — for an innovation that measurably improved delivery quality and operational reporting across customer accounts.
- **ACE — Accenture Celebrates Excellence; Top 25 Global AI Programs, Accenture; Performer of the Month, multiple awards**; rapid promotion on transition delivery.
- **Nine x Best Performer of the Month (SAP) and Delivery Excellence Award 2019 (TCS).**

EXPERIENCE

Operations Lead — SAP Industries & Customer Experience Portfolio Jan 2021 – Present

Accenture • Bengaluru, India

- **Team management.** Lead a **16-member operations team** supporting SAP's Commerce and Customer Experience platforms, owning workload allocation, shift coverage, performance management, onboarding and continuous enablement.
- **Client relationship ownership.** Serve as the **single point of contact between SAP and Accenture** for the account — every process change and new product inclusion routes through this role, with direct engagement across SAP India leadership and SAP's European organisation.
- **Commercial & negotiation.** Build effort calculators and pricing models, and prepare **RFP responses and quotations** for annual contract cycles, negotiating scope and service commitments with the client.
- **Process improvement & quality.** Own root cause analysis, problem management and process standardisation across the portfolio; established the SLA/KPI governance and reporting discipline that sustains **100% SLA compliance**.
- **Analytics & reporting.** Identified a reporting gap and delivered an **automated SLA/KPI signalling and analytics platform** replacing manual reporting — selected into Accenture's Top 25 Global AI Programs and the basis of the SAP Hero Award (Innovator).
- **Transition management.** Led the end-to-end operations transition from NTT Data to Accenture with **zero business downtime**, coordinating outgoing and incoming vendors, client stakeholders and delivery teams.

Subject Matter Expert — Service Operations Nov 2019 – Jan 2021

Tata Consultancy Services • Bengaluru, India

- Owned end-to-end incident response for the SAP Customer Experience estate, cutting **resolution time 40%** through triage automation and standardised escalation paths.
- Rebuilt the operational knowledge base, reducing repeat-issue resolution time **30%**; process and tooling improvements lifted operational efficiency **25%** and optimised shift resourcing **20%** through data-driven capacity planning.
- Sustained **NPS above industry average** through structured customer communication; ran training programmes to raise process adherence across the operations team.

Major Incident Manager Aug 2015 – Sep 2018

IBM • Bengaluru, India

- Incident commander for severity-1 events on enterprise customer platforms — cross-team resolution, executive and customer communication, and post-incident review. Introduced agile practice into the incident and problem lifecycle, materially reducing mean time to resolution and improving team throughput.

ADDITIONAL

- **Analytics & automation:** build reporting and automation tools independently, including AI-assisted operational assistants hosted on a self-funded cloud estate — applied directly to operational reporting and quality analysis.
- **Certifications:** AWS Certified AI Practitioner • HashiCorp Certified: Terraform Associate • AWS Certified Cloud Practitioner
- **Education:** B.Tech, Computer Science & Engineering — CMR Institute of Technology, Bangalore, 2015
