

Sai Pranav Atla

Service Delivery Manager | SAP Landscape Operations • Governance & Compliance • Team Leadership

Bengaluru, India | +91 96322 98045 | pranavatla@gmail.com | linkedin.com/in/saipranavatla | atla.in

PROFILE

Service delivery manager with **10+ years in IT** who has spent the last seven running SAP operations **for SAP itself as the client** — a bar few delivery managers are measured against. Accountable for keeping the landscape available, secure and inside SLA, and has held **100% SLA compliance** against SAP's own standards. Leads a **16-member operations team**: hires them, develops them, and hands them real ownership rather than tasks. Calm in system-down situations — a decade of severity-1 incident command — and trusted to present the availability numbers, root-cause findings and improvement plans that executives act on. Has a track record of making operations measurably better: **40% faster resolution, 25% more efficient, 30% fewer repeat issues**, and an automated monitoring and reporting platform that replaced manual reporting entirely — recognised with the **SAP Hero Award (Innovator)** and selected into **Accenture's Top 25 Global AI Programs**. Works across India and Europe daily, and moved an entire SAP estate between providers with **zero business downtime**.

CORE COMPETENCIES

Service Delivery	Owning the full service lifecycle, SLA definition and adherence, availability and performance, governance and review cadence, taking on new scope, coordinating vendors
SAP Operations	SAP S/4HANA and Customer Experience landscapes, system and tenant architecture, service hosting models, SAP's own SLA and KPI frameworks, maintenance and release coordination
Governance & Controls	Writing and maintaining operational policies, procedures and standards; quality and process-adherence auditing; identifying risks and managing them through mitigation plans; change governance; keeping documentation and evidence review-ready
Incident & Escalation	Severity-1 command when systems are down, problem management, root cause analysis, escalation handling, service continuity, post-incident review and follow-through on fixes
Team Leadership	Leading and mentoring 16 people, interviewing and hiring to business need, onboarding and developing engineers, delegating ownership, performance management, working across time zones
Reporting & Stakeholders	Operations and availability reporting, presenting to executives, explaining technical detail to non-technical audiences, aligning with infrastructure, security and business teams
Improvement & Automation	Automating monitoring and reporting, process standardisation, access and identity management on cloud platforms, applied AI for operational analytics

EXPERIENCE

Service Delivery Lead — SAP Industries & Customer Experience Portfolio Jan 2021 – Present

Accenture • Bengaluru, India • client: SAP

- **Service delivery ownership.** Own the end-to-end service delivery lifecycle across SAP's Customer Experience and S/4HANA landscapes — availability, performance, SLA adherence and governance — holding **100% SLA compliance** under SAP's own KPI frameworks.
- **Team leadership & development.** Lead and mentor a **16-member operations team**: interview and recruit to business need, onboard and develop engineers, delegate ownership of goals, and manage performance in a globally distributed model spanning India and Europe.
- **Escalation & RCA.** Own escalation management and root cause analysis for critical and system-down incidents; prepare and present **availability metrics, RCA findings and improvement plans** to client and internal executives.
- **Policy, standards & risk.** Write and maintain the operational policies, procedures and quality standards the landscape runs on; identify risks early and manage them through mitigation plans against committed timelines.
- **Automation & continuous improvement.** Delivered an **automated SLA/KPI monitoring and analytics platform** replacing manual reporting across the account — selected into Accenture's Top 25 Global AI Programs; basis of the SAP Hero Award (Innovator). Continue to push automation into monitoring and reporting across the team.
- **Stakeholder & commercial.** Single point of contact between SAP and Accenture — every process change and new scope inclusion routes through this role; build effort and pricing models and prepare proposals for annual contract cycles.
- **Transition delivery.** Led the end-to-end service transition from NTT Data to Accenture with **zero business downtime**, coordinating outgoing vendor, client stakeholders and delivery teams on time and to quality.

Subject Matter Expert — SAP Operations Nov 2019 – Jan 2021

Tata Consultancy Services • Bengaluru, India • client: SAP

- Owned incident and problem management for the SAP estate, cutting **resolution time 40%** through triage automation and standardised escalation paths.
- Rebuilt the knowledge and documentation framework, reducing repeat-issue resolution time **30%**; process and tooling improvements lifted operational efficiency **25%** and optimised resourcing **20%** through data-driven capacity planning.
- Sustained **NPS above industry average**; ran enablement and process-adherence programmes across the delivery team. Nine SAP 'Best Performer of the Month' awards and the 2019 Delivery Excellence Award.

Major Incident Manager Aug 2015 – Sep 2018

IBM • Bengaluru, India

- Incident commander for severity-1 and system-down events on enterprise customer platforms — cross-team technical resolution under pressure, real-time executive and customer communication, and post-incident review. Introduced agile practice into the incident and problem lifecycle, materially reducing mean time to resolution. Deep ITSM grounding in change, incident, problem and escalation management.

CONTINUOUS LEARNING

- **Hands-on practice estate (atla.in).** Runs a self-funded cloud environment end to end — automated provisioning, deployment pipelines, access controls and monitoring — used to prototype the automation ideas later applied to service delivery. Learns by building and running things rather than by reading about them.
- **Applied AI for operations.** Built and shipped AI-based operational tools end to end, and publishes free cloud and AI certification study material used by the wider community.

AWARDS, CERTIFICATIONS & EDUCATION

- SAP Hero Award — Innovator Category (SAP) • ACE — Accenture Celebrates Excellence • Top 25 Global AI Programs, Accenture • Performer of the Month, multiple • Nine x Best Performer of the Month (SAP) • Delivery Excellence Award 2019 (TCS).
- AWS Certified AI Practitioner • HashiCorp Certified: Terraform Associate • AWS Certified Cloud Practitioner
- B.Tech, Computer Science & Engineering — CMR Institute of Technology, Bangalore, 2015
